FAQ

1 - Should the Degree Recognition be completed by the closing date of the competition?

A. Yes, recognition of the degree must be submitted with the application. More information about this procedure here: http://www.dges.gov.pt/en/pagina/registode-diploma?plid=374

2 - Is it necessary to coordinate an R & D project, or is participation sufficient enough?

A. Project coordination is not an exclusion factor and is therefore not a necessary requirement.

3 - Is it expected to draft a proposal for a work plan and / or methodologies that address this issue? If yes, what is the expected duration of such a project?

A. The job proposal has to be in the area to which it competes. The contract is proposed for a maximum duration of 6 years, so the project must be feasible within this period of time.

4- With regard to the R & D project summary (max 2 page A4) of the contest do the references also count for the number of pages?

A. References will not go into the page count.

5- The copy of the 5 most relevant publications is restricted to the last five years? (throughout the document it refers always to the five years but in the documents to be presented it only says "f) Copy of the 5 most relevant publications;

A. It is not said that the publications should only concern the last 5 years, and should not be restricted to this period.

6- How do you count the 5 years - five years until the date of receipt of applications? 5 calendar years?

A. Yes, it will be counted from 2013.

7- Qualitative evaluation (PCQ): the candidate must provide copies of up to 5 articles that he considers most relevant - what aspects will be evaluated? Quartis? e.g.

A. The evaluation is done by the evaluators taking into account the various scientific aspects of the work and is not based on a single metric.
